MANAGEMENT POLICY

PHILOSOPHY

The YMCA strives to create a positive environment for all families and their children. In cases whereby a child or a family member's behavior is not aligned with the YMCA Core Values of respect, responsibility, caring and honesty or a child/family member's behavior compromises the safety and security of other participants, the YMCA reserves the right to withdraw the family from child care services.

METHOD

We will value mistakes as learning opportunities, and patiently remind the children of the rules and why they are important. We will guide children to resolve conflicts and model problem solving skills that will encourage eventual internalization of self-control. In addition, children will be given the opportunity to share their feelings and frustrations with an attentive adult. Inappropriate behavior will be directed to an acceptable activity. If necessary and successful, behavior modification may be used such as stickers, awards, stamps etc. The center's methods of management and guidance apply to all employees of the center. Staff will avoid the use of competitive situations, comparative remarks, threats, physical punishments, shaming or labeling children. At no time will delegation of discipline from another child will be allowed. Children will not be deprived of meals, snacks, rest or necessary toilet use as a source of punishment, nor will any child be confined in an enclosed area.

POSSESSION OF A WEAPON

A weapon includes guns, pellet guns, knives, pocket knives or club type implements. It may also include a toy that is presented as a real weapon or reacted to as a real weapon or any object converted from its original use to an object used to threaten or injure another person.

If a child brings a weapon to, or uses a weapon at, any YMCA Child Care site, the following actions will happen:

When appropriate, the YMCA staff will take the weapon away from the child. The school administration will be notified and the school discipline policy will be followed.

REMOVAL FROM PROGRAM

The YMCA reserves the right to remove a child from our programs for any of the following reasons:

- Chronic failure of the parent/guardian to pick up child from program on time.
- Failure of parent or guardian to pay fees as outlined in this manual.
- The child's needs are not being met in our small or large group setting.
- The child is a safety threat to himself/herself, other children or YMCA staff.
- This includes behavior such as fighting, striking others, biting and wandering away from the program.

In the event of repeated inappropriate behavior by a child, any of the following actions may be taken:

- An FYI or Behavior report will be completed and shared with the parent/guardian
- A conference is held with the parent/guardian to discuss how the parents/guardian can participate in resolving the situation.
- Additional resources may be provided or suggested for the family.
- Temporary suspension from the program. (payment credits will NOT be given)
- Permanent withdrawal from the program.

CARING FOR CHILDREN WITH SPECIAL NEEDS

We believe it is important to create an inclusive child care setting responsive to children with special needs who can be cared for in a group setting.

To fulfill the mission of the YMCA, guidelines for children with special needs have been developed to insure that the needs of all children are met, program quality is maintained and the safety of the children is never compromised.

The procedure/requirements for enrolling a child with special needs is as follows:

- Prior to a child with special needs attending the program, the Program Director will meet with the child and his/her parents or guardians. The meeting is for parents/guardians to offer suggestions for care of their child. Parents/guardians will be responsible to share what they know about their child's disability. The child will have the opportunity to become familiar with the program setting. In addition to the usual YMCA orientation materials, a "Child Health Care Plan" form must also be completed.
- The child with special needs must be able to be safely supervised in a group setting.
- We maintain the ratios prescribed by the state of Michigan Child Care Licensing as listed in this handbook.
- The child has not yet reached the chronological age limit of the program. Children reaching the program age limit during the school year will be served until the end of the school year.
- The Program Director will share information from the meetings with staff who will be caring for the child.

Additional resources are needed when:

- YMCA staff or the parents/guardians observe the child exhibiting behaviors (fighting, striking others, wandering away from the program) which cause him/her to be a safety threat to himself/herself, other children or YMCA staff.
- The child exhibits signs of extreme emotional stress or frustration.
- The child's behavior is so disruptive that it interferes with the program operation and safety on a regular basis.
- The child is not successfully being cared for in a group setting.
- The family may be asked not to send their child to the program until a meeting has taken place and new accommodations are ready to be implemented. The appropriate YMCA staff, parents/guardians and individuals the parents/guardians would like to invite (teacher, case manager) will meet to share their concerns and observations and try to work together to develop a plan on reasonable accommodations. Brainstorming ideas and strategies with parents may result in a plan that may include one or more of the following:
 - Contacting the child's teacher, case manager or inclusion specialist to observe the child and make accommodation recommendations to staff and parents.
 - Re-examining the group child care environment.
 - Putting together a favorite box of toys for the child.
 - Provide additional training for the staff.

Parents will be kept updated by the staff with written incident and behavior reports. Parents are encouraged to visit and observe the program at any time. Conferences are available at the request of parents or staff.

If there are still difficulties after implementing the program accommodations, the Site Director will meet with the parents to share their concerns. They will also inform the appropriate YMCA staff. If it is necessary to disenroll a child from the program, parents will be notified following the procedures outlined in this manual.

HEALTHY EATING PHYSICAL ACITIVITY-HEPA

As part of our focus on developing healthy habits in kids, families, and our communities, we have committed to adopting Healthy Eating and Physical Activity (HEPA) standards in our early learning and afterschool programs.

- Water is accessible and available to children at all times, including at the table during snacks and meals.
 - Provide only water and unflavored low-fat (1%) or nonfat milk (for children 2 or older), family style.
 - Engage parents and caregivers using informational materials and activities focused on healthy eating and physical activity a minimum of once every three months (a minimum of 3-4 times per year).
 - Children serve themselves (family style) all food and beverages from common bowls and pitchers with limited help. Staff sit with children during snacks and meals.
 - Provide fruits or vegetables (fresh, frozen, dried, or canned in their own juice) at every meal and snack.
 - Do not provide any fried foods. Fried foods include items like potato and corn chips, in addition to foods that are pre-fried and reheated (e.g., pre-fried french fries that are then baked, chicken patties, chicken tenders, chicken nuggets, fish sticks, Tater Tots®, etc.).
 - Do not provide any foods that contain trans fat (listed as partially hydrogenated oils in the ingredients).
 - Offer only whole grains, as determined by confirming that the first item listed in the ingredients contains the word whole (e.g., whole wheat, whole oats, whole-grain flour, whole brown rice).
 - Provide foods that don't list sugar (e.g., sugar; invert sugar; brown sugar; words ending in -ose; and syrups like high fructose corn syrup, honey, etc.) as one of the first three ingredients or that contain no more than 8 grams of added sugar per serving.
 - Y staff will model healthy eating behaviors at all times. This includes consuming the same foods and beverages as children during meals and snacks (if possible) and avoiding consumption of foods or beverages that are inconsistent with the HEPA standards during program time.
- Provide children with opportunities for moderate and vigorous physical activity for at least 60 minutes per day during a full-day program or 30 minutes per day for a half-day morning or afternoon program. The time can be broken down into smaller increments. Include a mixture of moderate and vigorous activity (activity that increases the heart rate and breathing rate), as well as bone and muscle-strengthening activities. Take active play outdoors whenever possible.
 - Y staff will model active living by participating in physical activities with children.
 - Eliminate screen time (television, movies, cell phone, video games, computer, and other digital devices) for children under 2 years old. For children over 2, limit screen time to less than 30 minutes per day for children in half-day programs and to less than 1 hour per day for those in full-day programs. During screen time, seek to minimize children's exposure to commercials and ads marketing unhealthy foods.
